

## **Tradition & Technology dictate the positioning of SOLANCIS, founded in 1969.**

With 12 owned quarries and 2 manufacturing units, SOLANCIS extracts, designs, transforms and delivers to its customer, presenting a projects portfolio currently in 70 countries.

The company is recognized worldwide for its innovative processes with a key focus on sustainability, its specialized team, its custom-made project development services, and the fully integrated digital processes, creating a stone passport from the extraction and transformation phases to the construction site delivery.

The respect and appreciation for the Portuguese limestones and the creation of added value for this unique and singular material are crucial for the industry!

Therefore, to the entire system and procedures implemented, SOLANCIS combines transformation with the recovery of inactive quarries and environmental protection measures carried out at the transformation units.

‘Let’s talk about stone?’ is the company’s new promotional campaign!

**Follow SOLANCIS on social media and continue to discover the new world of stone!**
